Summer Issue 6

Year 2 Trip to Paultons Park

As part of their Computing work on algorithms, Year 2 visited Paultons Park on Wednesday 23rd June (above and right). Once there, both classes took part in a programming workshop and wrote a programme to make the Sky Swinger ride work. All the children were able to use their knowledge of algorithms to write a programme and debug any problems - they even add-

ed flashing lights and music! We then had the opportunity to spend some time in the park and go on the rides. St. Honore said the day was 'amazing' and St. Rose would like to go back every day.

Year 6 Cycling Proficiency— Prior to having to isolate, earlier this week the children in Year 6 took part

in BikeAbility sessions. We were very lucky that the weather held out and the children learned a lot

This Sunday's Gospel

Mark 5:21-43

...taking with him the child's father and mother and his own companions, (Jesus) went into the place where the child lay. And taking the child by the hand he said to her, 'Talitha, kumi!' which means, 'Little girl, I tell you to get up.' The little girl got up at once and began to walk about, for she was twelve years old...

Dates for your Diary

International Day—29th June (feast of St Peter and St Paul)
More information to follow.

Sports Day—9th July

Reserve Sports Day—13th July

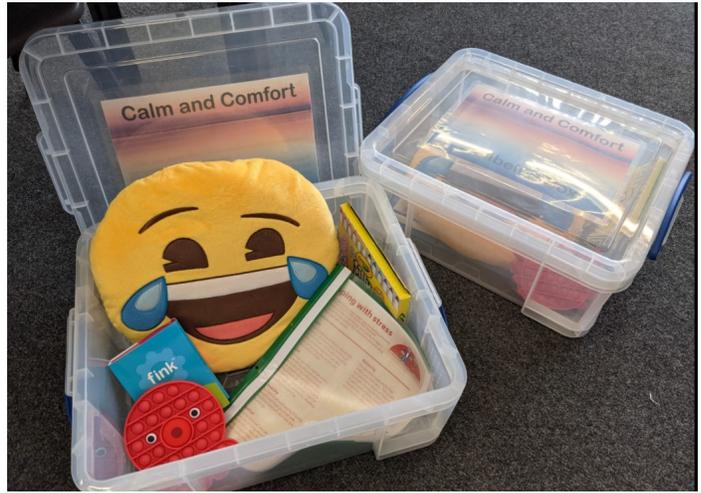

from this experience. On the first day, the children learned how to check their bikes carefully before using them and were also quizzed on their knowledge of road signs and regulations. The children practiced using their signalling in the playground (above) and we were amazed with how quickly some complete beginners were soon riding in no time as well. The children were then allowed to cycle on the roads nearby to the school with adult instructor supervision. All the children had a fantastic experience and are now very much ready for some biking adventures over the Summer holidays!

Mental Health –Earlier this year, we held a mufti day to raise money for mental health and wellbeing resources in our school. With all the money raised, we were able to provide each class with a box of mindfulness resources (above right) to support the mental health of the students in our school. Our emotions are strongly connected to our senses so finding things that positively stimulate our senses can help to lessen any worries or pressures we may be feeling. These boxes are filled with resources that will support children, including sensory toys, smelly markers, cushions, and resources to encourage conversation.
