Autumn Term Issue 1

## Year 6 Tie Ceremony

Congratulations to all of the boys and girls in Year 6 (above) who took part in the annual Year 6 Tie Ceremony yesterday. This ceremony is an opportunity to recognise the milestone that the children have reached by becoming 'top of the school'. It's also an opportunity to remind them of the added responsibility they have in setting an example to all of the younger children across the school. We're quite sure that all of the Year 6 children will rise to this challenge and be great role

-models for all of the other boys and girls. In addition to receiving their new Year 6 ties, some of the children were also elected to additional roles of house captains, prefects, deputy head boy and girl

and head boy and girl. These children were elected by their peers for these important positions (Well done boys and girls!

*Football*—Our Year 5/6 boys' football team (below) started the new

### This Sunday's Gospel

Matthew 20:1-16

*...(the landowner) said, "My friend, I am not being unjust to you; did we not agree on one denarius? Take your earnings and go. I choose to pay the last comer as much as I pay you. Have I no right to do what I like with my own? Why be envious because I am generous?" Thus the last will be first, and the first, last.'*

### Dates for your Diary

Tuesday 26th September at 9.10am in the hall—Ladybirds Tie Ceremony—please join us

Wednesday 27th September at 9.10am in the hall—Butterflies Tie Ceremony—please join us

3rd October—St Dymphna Liturgical Worship at 9.10am in the hall—please join us

school year in style by winning 7-2 at St John's School last week. The boys have obviously got a lot of talent between them and we expect great things from them over the next year! Thanks also to Mr Axford for his coaching support.

*Year 6 Trip to Queen Mary's College*—On Tuesday, we went to the Science Centre at Queen Mary's College! While we were there, we took part in a number of experiments related to different types of forces. We made parachutes to investigate air resistance, used pulley systems to cal-

culate the different amount of force used when lifting, we used different shaped boats to test water resistance and manipulated gears and cogs to make our own systems. We had a great time!

*Reported by Mrs Salter*

*OFSTED inspection*—Thanks to all of our parents for their support during our OFSTED inspection last week, especially via the [Parentview website](#). (the overall feedback was fantastic—see screen shot below). We currently are awaiting our report and will share it as soon as we receive it.

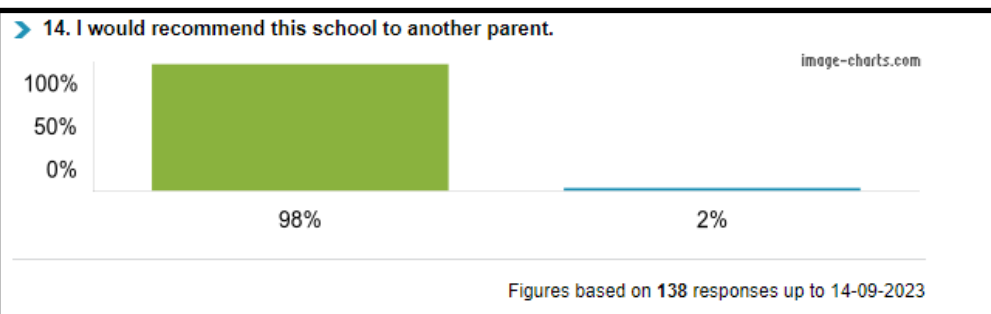

*Well done to the children who have won these recent awards*
